Native Construction  
1221 W Campbell Rd Ste 203  
Richardson, TX 75080

To whom it may concern,

I am pleased to recommend Native Construction as General Contractors. We have worked with Native Construction on several projects over the last two years. They have proven their expertise in managing each of these projects from start to finish bringing each of the projects in on time and either at or below budget.

I have found Native Construction extremely responsive to our requests. We experienced a severe winter storm in North Texas which caused a loss of power resulting in burst pipes in one of our facilities. My first call was to Native as I could count on their responsiveness in cleaning up and demolishing the damaged wood and drywall before further damage occurred. Though it was late at night, they immediately began coordinating crews to work on the facility. Native went above and beyond to get us squared away in this extreme and unique situation.

We continue to use Native Construction and experience the same exemplary level of service. I know that when we select Native Construction for a project it will be completed on time, on budget and with no headaches.

I highly recommend Native Construction for your projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rob Bourestom".
