Native Construction
1221 W. Campbell
Suite #203
Richardson, TX 75080

To Whom It May Concern:

The City of Corinth has had the pleasure of having work performed by Native Construction. The current environment makes it very difficult to get vendors to respond to requests for work. Native Construction responds immediately, meets, and follows up in a very timely fashion.

Recently Native Construction painted and recarpeted all of City Hall. The task was not easy as furniture had to be moved, carpeting placed, while at the same time city services continued. During this event Native Construction focused on safety of our employee's as well as, our constituent's. In addition, Native Construction worked around our City Council and Planning and Zoning night meetings. Once the job was completed it was if it never happened.

To date, we continue to contact Native Construction first, for advice and costs of new projects. Again, the timeliness of response and their guidance on what would be best for us means a lot coupled with the outstanding quality of work. I strongly recommend their services.

Sincerely,
